

SIGNAGE GRAPHICS & DISPLAYS

ELEVATE YOUR CREATIVITY

Details matter. In signage, graphics or displays, each element can transform your identity and enhance how customers connect with your products.

Professional Plastics understands the power of these details. We have the innovative material solutions, experience, and precision fabrication capabilities to bring your vision to life.

LEVERAGE VISUAL APPEAL & DURABILITY

Don't sacrifice quality or creativity. From dynamic exterior signage to intricate interior showcases, plastics give you the look you want with the strength and flexibility you need.

Common applications include:

- Signage - interior & exterior
- Trade shows & exhibits
- Retail, graphics & kiosks
- Grand format & screen printers
- Framers & decorative art
- Printing & graphics
- POP displays
- Vending, arcade & gambling visuals
- Lighting products

SOLUTIONS FOR ANY INDUSTRY

We have experience providing cost-effective solutions for customers in every market. When you need durable, wear-resistant materials to create eye catching visuals - all signs point to Professional Plastics.

YOUR GLOBAL LEADER FOR INNOVATIVE MATERIAL SOLUTIONS

Whether you need raw materials, engineering and design support, custom fabricated pieces — or any combination in between — our experts can help.

In addition to our vast inventory of plastics, we offer a wide variety of value added services including, but not limited to:

- Cut-to-Size
- Laser Cutting
- Forming
- Route to Shape
- Edge Polishing
- Bending

When you want the best selection, pricing and service to support your business, look no further than Professional Plastics.

THE PERFECT CANVAS: MATERIALS FOR PRINTING & PAINTING

Plastics offer endless possibilities. They are easy to shape, have strong impact and UV resistance, and come in a wide range of colors, sizes and opacities to fit your needs.

These sign-grade materials include:

- Acrylics
- Polycarbonates
- Aluminum Composite Sheet (ACM)
- Expanded PVC
- PET & PETG
- Corrugated Paper Printables
- Fluted Polypropylene
- Foam Boards (paper & polystyrene faces)
- High Impact Polystyrene (HIPS)
- Acrylonitrile Butadiene Styrene (ABS)
- Roll Materials [vinyls, films, magnetics, printables]
- HDPE
- Mirrored & Specialty Substrates
